Orders, etc., bearing halfpenny stamps and posted after 4.30 p.m. are not received by us until the late afternoon post on the following day; too late for any despatch except post.

PILFERING. SHORTAGE. Damage to goods during transit.—Claims not made within three days are now declined by Railway Companies. Advise us and Railway Company immediately of anything wrong. We must receive the particulars within 24 hours, or any claim will be void. Tampering with packages may be suspected from external appearances. Signature should then be qualified by the words "package damaged" or similar remark. "Not examined" is useless to support a claim.

TERMS.—All prices have been revised and are quoted upon a strictly NETT basis. Overdue accounts will be charged an additional 5 per cent. Owing to the unsettled state of the markets prices are subject to revision without notice. Goods will be invoiced at prices ruling on date of delivery.

RETURNS.—All Packages are allowed for in full unless received in a damaged condition. They should be sent with as little delay as possible, carriage paid, and we suggest that a full list of the empties, &c., returned, be placed inside the package, together with name and address of sender. Please return straw and packing paper.

Customers are particularly requested to see that their name and address appear on the label of each package. A large number of empties are unable to be credited owing to the neglect of this precaution.

All empties should be advised, with full particulars, when sent off.

Goods returned, if sent with empties must be separately entered and described as **goods,** otherwise no claim can be made on the carriers should the goods be lost.

Customers will VERY GREATLY OBLIGE by carefully noting and acting upon these directions.
